LETTER OF DEFICIENCY# WSEB 02-35
Certified Mail# 7099 3400 0003 0692 3607

Subject: Epping - Public Water System: Mill Pond Road (EPA#0762140)

Dear Ms. Golden:

The records of the NH Department of Environmental Services (DES) show that the Mill Pond Road water system is classified as a public water system (PWS), as defined by RSA 485:1-a. A PWS is defined as any water system supplying 15 or more services, or 25 or more people for 60 or more days per year. As such, the water system owner is required to submit chemical samples according to the system's established sampling schedule to the State laboratory or a State-certified laboratory in compliance with NH Administrative Rule Env-Ws 326.

DES records show that the subject water system failed to submit the following chemical sample results for the following monitoring period (calendar quarter):

**Q4 - 2001
RAD and VOC**

As a result of the failure to submit the above-described samples, a Notice of Violation (NOV), dated March 14, 2002, was sent to you. The NOV requested that you immediately submit the above-described samples as make-up samples. To date, DES has not received the make-up sample results, thus placing the water system in violation of Env-Ws 326.

DES believes the monitoring/reporting deficiency can be addressed by taking the following action:

- 1 **By June 7, 2002**, submit a RAD and VOC "make-up samples" to the State laboratory or a State-certified laboratory. Please use the enclosed analysis results form when submitting the samples to your laboratory.

The failure to submit Q4-2001 RAD and VOC samples required you to perform public notice of the monitoring/reporting violation. The March 14, 2002, NOV requested that you perform the public notice within 30 days and submit proof of public notice to DES within 10 days of providing public notice. To date, DES has not received proof of public notice, thus placing the water system in violation of Env-Ws 351.

Letter of Deficiency# WSEB 02-35

Mill Pond Road

May 29, 2002

Page 2 of 2

DES believes the public notice deficiency can be addressed by taking the following actions:

1. **By June 7, 2002**, provide public notice of the failure to submit the Q4-2001 RAD and VOC sample, as specified on the enclosed form; and
2. **By June 17, 2002**, provide proof of public notice to DES, as specified on the enclosed form.

In the event compliance is not achieved within this period, DES may take further enforcement action. These actions include issuing an order requiring the deficiencies to be corrected, initiating an administrative fine proceeding, and/or referring the matter to the NH Department of Justice for imposition of appropriate penalties.

The proof of public notice as requested above should be addressed as follows or faxed to (603) 271-5171:

Jeanne D. Lawson
Department of Environmental Services
Water Supply Engineering Bureau
6 Hazen Drive, PO Box 95
Concord, NH 03302-0095

Please contact Jeanne Lawson at (603) 271-6703 or by email at jlawson@des.state.nh.us, if you have any questions regarding this letter.

Sincerely,

 **COPY** *for APG*
